

Services

Professional Solutions...

We provide tailored insurance solutions to all types of professional risks. By drawing upon our collective experience of broking and underwriting, both international and domestic, we are well positioned to offer market leading services and advice.

Citynet Professional Solutions team enjoy strong working relationships throughout the London market which enable us to source innovative solutions to even the most intricate risks. We offer an expert support service throughout the policy period, responding quickly and comprehensively to technical queries and complex challenges as they arise.

It is our fresh approach and specialist knowledge that separates us from our competitors and ensures that we secure the very best value and coverage for your clients.

What do we do?

We arrange all types of Primary and Excess Professional Risk Insurance for UK and International businesses including but not limited to:
